Subject of Interest : Data Structures and Algorithms, Database.

Projects

- E-STUDY** (Ongoing)
It is a website to help the students who do not have access to education at all or who wish to learn thing online. It is a collaborative teaching tool that bridges the gap by offering an age agnostic solution to motivate learners.
- E-commerce website (June 2017)** (June-June 2017)
It is an E-commerce website selling cameras of various brands. It is a responsive and interactive website, based on PHP, Bootstrap, HTML, CSS and MySQL.
- Student Result System** (Oct - Nov 2016)
It uses different concepts related to software development such as Database handling and its normalization for multiuser profiles of teachers and students, helping them to view and analyses their results with the help of graphical data. Moreover, improving my technical skills and expertise in JAVA language.

Trainings

- Web Development** from Internshala VTC. (June 2017-July 2017)
- Core Java** from NAVODAYA INSTITUTE PVT LTD. (June 2016- July 2016)
