Projects

- **Expense Manager Application**   (Continuing)
  It is tough to keep track of expenses on a trip. Expense Manager is a Web based Application, which helps to keep record of expenses during a trip, and shows balance from allocated budget. We can add, update or delete expenses. It saves our time and money by keeping a clean and accurate record of it.
- **Student Result System**   (Oct - Nov 2016)
  It uses different concepts related to software development such as Database handling and its normalization for multiuser profiles of teachers and students, helping them to view and analyses their results with the help of graphical data. Moreover, improving my technical skills and expertise in JAVA language.
